PROFILE

Senior iOS engineer and technology founder with 8+ years delivering banking, telecom, payment, and consumer products. Skilled in Swift, mobile architecture, team leadership, release delivery, and production support; now also building mobile games and AI-agent products through Techna and NovaLumina.

CORE SKILLS

iOS: Swift, Objective-C, UIKit, SwiftUI, Combine, Core Data, Firebase, REST APIs
Architecture: MVVM, MVVM-C, MVC, Clean Architecture
Quality & delivery: XCTest, XCUITest, CI/CD, Jenkins, Fastlane, GitHub Actions, App Store Connect, TestFlight
Additional: Flutter, Android/mobile development, SQL, JavaScript, Agile/Scrum, technical leadership

PROFESSIONAL EXPERIENCE

Senior iOS Engineer | Contractor
Current engagement

Safaricom Kenya | Nairobi

Contractor continuing iOS delivery following full-time employment from April to December 2024.

- Led design, development, and optimization of high-performance iOS experiences for Safaricom customers.
- Partnered with cross-functional teams on customer-facing telecom, mobile banking, real-time payment, and location-based features.
- Architected scalable Swift and Objective-C applications with attention to reliability, performance, and engineering standards.
- Implemented automated tests, continuous integration, and code reviews to improve stability and reduce maintenance.
- Promoted Agile practices and continuous workflow improvement; provided on-call support for critical production issues.

iOS Team Lead
Dec 2023 – Apr 2024

Equity Bank Kenya | Nairobi

- Owned the iOS workstream for a new banking application under development.
- Ensured the team had the information and resources needed to maintain steady delivery; coordinated biweekly iOS knowledge-sharing meetings.
- Reviewed pull requests and maintained code quality across the team.
- Coordinated testing with QA and Security and established CI/CD setup and deployment workflows.

Senior iOS Engineer
Aug 2022 – Aug 2023

Teya | United Kingdom

- Built mobile applications for iOS and Android and hybrid applications with Flutter.
- Maintained retailer payment apps through regular releases, bug fixes, and performance, stability, and security improvements.
- Developed payment solutions and integrations focused on secure, efficient operation with existing services.
- Worked with stakeholders to clarify requirements and deliver solutions; participated in stand-ups, sprint planning, and retrospectives.
- Helped prioritize team work, allocate resources, and meet milestones; reviewed pull requests and coached consistent engineering practices.

Senior iOS Engineer
Nov 2019 – Aug 2022

Equity Bank Kenya | Nairobi

- Planned and assigned iOS work against business priorities and helped lead Equity Mobile delivery for accounts, bill payments, airtime, and money transfers.
- Researched complex technical topics and organized team discussions to resolve challenges.
- Prepared test and production builds with release notes to support QA; reviewed pull requests and maintained code quality.
- Provided post-launch support, investigating issues and delivering timely fixes.

Software Engineer
May 2018 – Jun 2019

Eclectics International Kenya | Nairobi

- Designed and implemented mobile banking systems for clients across Africa and integrated services with banks and telecommunications providers.
- Contributed to functional and business requirements and designed, normalized, and upgraded legacy databases.
- Supported customer-server deployments after go-live and trained employees on products and new systems.

SELECTED FINTECH PRODUCTS

Equity Mobile | Digital banking
Contributed to Equity Mobile and led iOS delivery for a new banking application. Product capabilities included account management, bill payments, airtime purchases, and money transfers.

Safaricom One App | Telecommunications & mobile money
Delivered iOS work for an app bringing telecom and mobile money services together, including payment and location-based features. Prior full-time employment ran from April to December 2024; I continue to work with Safaricom as a contractor.

Teya | Retail payments
Built and maintained retailer payment applications across iOS, Android, and Flutter, focusing on secure integrations, reliability, and performance.

Eclectics International | African banking platforms
Built mobile banking systems and integrated services with banks and telecommunications companies across Africa.

SELECTED PRODUCTS & CONTRIBUTIONS

NovaLumina Studio | Co-founder and Technical Director
Built and shipped a portfolio of five mobile games for iOS and Android as part of the Techna ecosystem. Live titles include Word Master, Neon Drop, Color Quest, Block Space, and Orb Catch.
novaluminastudio.com

Techna Company Limited | CEO and Co-founder
Building agent-based AI products, including Clarity, an AI-assisted contract review and negotiation-preparation workspace, and ForgeLab, an AI-assisted design-for-manufacture workflow.
Both products are available as live previews and are pending production release.
Techna | Clarity preview | ForgeLab preview

Open-source contributions | AI and iOS
Contribute to open-source projects across AI and iOS, including Strix, an open-source AI penetration-testing tool.
github.com/usestrix/strix | GitHub profile

EDUCATION & CERTIFICATION

Certification | Moringa School | May 2018 – Nov 2018

Referees available upon request.
